

ENVIRONMENTAL POLICY STATEMENT

Referring to Environmental Management Systems ISO 14001: 2004

Dutch Health is committed to leading the industry in minimizing the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimize waste by evaluating operations and ensuring they are as efficient as possible within our factory and administrative activities
- Minimize toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimize the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
- Use accredited programs to offset the greenhouse gas emissions generated by our activities.
